UNDERSTANDING MENTAL HEALTH

a health column from the
Alcohol, Drug Abuse, and Mental Health Administration
U.S. Department of Health, Education, and Welfare

Health Insurance for Mental Health

As with most diseases, early treatment of mental illness is usually best. A problem can often be solved with professional help before it grows into a serious mental disorder.

This is one reason why more and more health insurance policies include some benefits for mental health care. By paying some or all of the cost, the insurance makes it possible for a growing number of middle- and low-income people to seek help.

Early treatment is good preventive medicine. Some people who cannot afford to pay for sessions with a psychiatrist or a psychologist keep putting off treatment until they must go to a hospital. By that time, they are miserable. Their families have been disrupted, and friends and coworkers alienated or alarmed. Then, their job or school work suffers while they are hospitalized.

Early treatment makes good economic sense, too. A few sessions with a private clinician or in a community mental health center cost far less than a hospital stay of even one week. Wages lost while a breadwinner is emotionally disabled result in hardship for all members of the family, who are already suffering.

The first nationwide insurance program covering psychiatric care was negotiated by the United Auto Workers International Union (UAW) in 1964. Since then, many other unions and companies have developed similar programs.

The UAW plan covers outpatient care as well as treatment received in a hospital so that auto workers can receive treatment while they continue to work.

A Michigan research group recently sought to find out why some UAW families had not made use of their mental health benefits. The main reason, they discovered, was that members did not know about the coverage—nor did their family doctors or others who might refer them to the proper treatment.

If you want to know whether you are eligible for mental health benefits, check your health insurance policy or write to the company which insures you. If you do not have health insurance, it is a good idea to shop for a policy that includes mental health benefits.

First known hogs brought to the United States were the 13 animals which arrived on the coast of Florida in 1539 with Hernando de Soto and his conquistadors. Hog numbers have come a long way since then. Last year, it is estimated that some 63 million hogs were marketed. Hog production, however, was down sharply last year due to high production expense. The record for hog marketings was in 1971 when some 94 million hogs were marketed.

Raiders Over Governors 38-12

William "BooBoo" Trent rushed for 166 yards and scored 24 points in leading the Raiders to a convincing 38-12 victory over Nelson County last Friday night.

Appomattox had 183 yards rushing and 82 yards passing while the Raider defense led by James Robinson, Phil Jamerson, Tom Hix, R. L. Harris and Murray Mozingo held Nelson to only 6 yards on the ground and 102 yards total.

Robinson blocked a punt early in the game to set up the first Raider TD, a 3 yard run by Trent. In the second period Trent scored on a 4 yard run and minutes later Joe Fraley hit Tom Wingfield with a 30 yard scoring pass.

There was no scoring in the third period but a Nelson turnover gave the Raiders good field position early in the fourth quarter which led to Trent's third touchdown of the evening as he crashed over from the one.

Following a Nelson TD the Raiders had the ball on their 20 yard line when Trent found a hole in the Governor defense and romped 80 yards for a TD. The final Appomattox score came on a 19 yard pass from Trent to Cecil Booker.

Nelson scored their second TD of the night late in the fourth period as Coach Larry Carter went to the Raider bench to give his reserves some experience.

The Raiders are currently 3 and 1 in the Seminole District and rank second behind the Rustburg Red Devils.

Raider Jayvees Lose To Nelson County

All scoring took place in the first half as Nelson County defeated the Appomattox Jayvees 16-8 in a game played last Thursday in Bragg Stadium.

The Nelson Jayvees scored in the first period on a 40 yard run from scrimmage. A 2 point conversion attempt was good and Nelson led 8-0 at the end of the first quarter.

Both teams scored in the second period, Nelson on a pass good for 20 yards and Appomattox on a 4 yard run by Ernie Chenault. Byron Roach passed to Darrell Schrock for 2 points and Nelson led at the half 16-8.

Both defenses tightned in the second half and did not give up any more points.

This was the first loss for the Junior Raiders after two wins. Nelson's record is also 2 and 1.

The Raiders travel to Altavista for a game tonight.

HIGH SCHOOLERS BEGIN 30-HOUR TRINING IN SODA PROGRAM

Approximately 150 high schoolers from Central Virginia begin 30 hours of training Saturday, September 11, to participate in the SODA Program.

SODA stands for Students Organized for Developing Attitudes. It is a mental health prevention program, directed by D. A. S. H., Drug Abuse Services Hub.

Sue Holland, Director of D. A. S. H., announced Friday that high schoolers from E. C. Glass, Heritage, Brookville, Altavista, Amherst, Jefferson Forest, Liberty, and Holy Cross are participating in the training. The training, held on Saturdays and Sundays in September, is conducetd by Miss Holland and other DASH staff and is held at the Lynchburg General Nurses Residence Recreational Room. The training begins at 9 a.m. Saturday.

The high schoolers have been nominated by their teachers and screened to meet 16 requirements including maturity, ability to relate to others, positive values, constructive attitudes, has rapport with peers, acceptable academic achievements, clean, neat appearance.

Lynchburg high school students will receive 1/2 credit for their participation in SODA.

Director and Coordinator of the SODA Program with the schools is Miss Vicki Holman. She was hired in March through a special grant made possible by the Virginia Drug Abuse Advisory Council from Overcharge Funds.

The SODA Program began in Central Virginia in the fall of 1974. Miss Holland introduced the program to school superintendents in the area.

Four main objectives of SODA are: 1) to influence and affirm the self-worth of each high schooler and elementary child in SODA, his importance, his loveliness and capabilities. 2) to promote the personal and social growth to full human potential. 3) to prevent mental or emotional or social impairment. 4) to reinforce an individual's mental health so he will refrain from drug abuse.

A faculty supervisor coordinates each team at each high school. They are - Ernie Guill, Amherst; Judith Wolcott, Liberty; Ed Witt, Jefferson Forest; Eunice Stott and Margaret Bennett, Altavista; Sister Roseann, Holy Cross; Ashby Milstead, Brookville; Judy Cleary, E. C. Glass; Mark Storm, Heritage.

Other D. A. S. H. staff who assist in the training are Mike Bailey and Antionette Jones.

Meals for the Saturday training on September 11 were provided by Thinbrook Jaycees, and on September 18 by the Amherst Jaycees, and on September 25 by the Lynchburg Jaycees.
